BREWER/MAESTRO AIRCRAFT
IRKUTSK AIRFIELD NORTHWEST, USSR

Irkutsk Airfield NW (52 22N-104 11E) is located 6.3 nm northwest of Irkutsk, USSR (52 17N-104 17E). Irkutsk Airframe Plant No. 39 is located at the southeast end of the airfield.

Stereo photography of [] covers the airfield and plant area, however, the resolution is insufficient to measure the aircraft and their engine nacelles with the accuracy necessary to detect differences in their lengths. This being the main interpretive difference between models identification by model is not possible. The cockpits on the aircraft cannot be detected and therefore identification of any of the aircraft as MAESTRO rather than BREWER can not be accomplished.

 25X1

All 39 of the aircraft appear to be completely assembled (all wings, engines etc. attached) and 20 of the aircraft have external fuel tanks attached to the wings outboard of the engines. Thirty-seven of the BREWER/MAESTRO are parked on the parking apron and 2 of the BREWER/MAESTRO are parked on the apron in front of the airframe plant final assembly hall.
